FOR A BETTER WORLD

With the support of Visy, the Tread Lightly Charitable Trust is offering free whanau "recycle right" workshops for schools in Auckland.

The workshops are designed to provide a "snapshot" for adults on what can and can't be recycled through the kerbside collection, covering many common mistakes that households make when sorting their household waste. The workshops are run from 2.30 - 3pm to accommodate parents/caregivers arriving at school to collect their children. Workshops can also be repeated after 3pm for school staff.

The workshops are a great way for schools to support community learning.

Schools are provided with invitations to send to parents, with the workshop delivered by a Tread Lightly staff member. Everyone attending is given a beautiful reusable shopping bag to take home.

All schools have to do is provide a room for the workshop and actively promote the workshop to their families! The workshops are FREE and we have a target of 25 parents per workshop.

To book a workshop for your school please contact Diana Prieto
